REVIEW REPORT ON INTERIM CONSOLIDATED FINANCIAL STATEMENTS

TO THE MEMBERS OF BOARD OF DIRECTORS OF RAYA CONTACT CENTER (S.A.E)

Introduction

We have reviewed the accompanying consolidated statement of financial position of **Raya Contact Center (S.A.E)** and its subsidiaries ("the Company") as of 30 June 2017 as well as the related consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with Egyptian Standard on Review Engagements No. 2410, "Review of Interim Financial Statements Performed by the Independent Auditor of the Entity." A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements does not give a true and fair view, in all material respects, of the consolidated financial position of the Company and its subsidiaries as at 30 June 2017, and of its financial performance and its cash flows for the six-month period then ended in accordance with Egyptian Accounting Standards.

Emphasis of matter

We draw attention that we have not reviewed the interim consolidated financial statements of the Company and its subsidiaries as at 30 June 2016, accordingly we do not express a conclusion on the consolidated financial position of the Company as at 30 June 2016, and of its financial performance and its cash flows for the six-month period then ended.

Cairo: 13 August 2017

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

1. BACKGROUND

Raya Contact Center (S.A.E) (the Company or the Parent) was founded on 14 February 2001 under the name of Seranet for Software and Content Development in Egypt, under law no. 8 of 1997 and its executive regulations. The Company was registered in the Commercial Register under No. 139696.

The Company started its activity on April 2001 upon the approval of the General Authority of Investment.

On 22 April 2003, an Extraordinary General Assembly meeting decided to change the Company's name to be Raya Contact Center S.A.E and modified the second article in the Company's article of incorporation, which was approved by the General Authority of Investment and Free Zone Areas on 8 June 2003 according to the General Authority of Investment decision no.1994 of 2003.

In February 2015, Raya Contact Center became a listed company on the Egyptian Stock Exchange ("EGX").

The Consolidated financial statements of Raya Contact Center (S.A.E) and its subsidiaries (collectively, the Group) includes the financial statements of the Parent and the following subsidiaries:

Company name	% of ownership
1- Call Center Company -C3	99.54%
2- Raya for Contact Center Building Management Company – RCCBM	97%
3- Raya Contact Center Gulf	100%
4- Raya Contact Center Europe	100%

Raya Contact Center acquired both Call Center Company – C3 and Raya for Contact Center Building Management Company during April 2014, and established both Raya Contact Center Gulf during June 2014 and Raya Contact Center Europe on January 2015.

The Company's Ultimate Parent is Raya Holding Company for Financial Investments S.A.E..

These financial statements for the period ended 30 June 2017 were authorized for issuance in accordance with the resolution of board of directors on 13 August 2017.

Group activities

The Group is principally engaged in the provision of the following services:

- Contact Center Services including: Customer Service, Technical Support, Inbound Sales and Tele-marketing.
- Inside Sales Channel Management services including: Account Profiling, Campaign Management, Lead Management and Account Management.
- Back Office Services including: Data Management, Finance & Accounting, Payroll Processing and Supply chain Management & temporary customer management.
- Professional Services including: Call Center Hosting, Contact Center Training, Social Media, Contact Center and Start-up Consultancy.

2. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

The Consolidated financial statements of the Group are prepared under the going concern assumption on a historical cost basis.

The Consolidated financial statements of the Group are prepared and presented in Egyptian pound, which is the Company's functional currency.

Statement of compliance

The Consolidated financial statements of the Group are prepared in accordance with the Egyptian Accounting Standards and the applicable laws and regulations

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

2. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

During April 2014, "Raya Contact Center S.A.E" acquired 99.54% of the shares of "Call Center Company- C3". The Company also acquired 1 % of the shares of "Raya for Contact Center Building Management Company" and subscribed in the capital increase of the same company to increase its ownership to 97%. As a result, the Company obtained the majority of the voting rights of these two subsidiaries and the ability to govern their financial and operating policies.

Since these two subsidiaries were under the control of "Raya Holding Company for Financial Investments S.A.E" (Ultimate Parent), before the acquisition by "Raya Contact Center", this transaction is considered a common control transaction which is scoped out from EAS 29 "Business combination".

The Company applies the Pooling of interest method with retrospective presentation as if the subsidiaries had always been combined in accounting for common control transactions. Under the policy adopted by the Company the following is applied:

- The assets and liabilities of the combining entities are reflected at their carrying amounts and no adjustments are made to reflect fair values, or recognize any new assets or liabilities.
- No 'new' goodwill is recognized as a result of the combination, the only goodwill that is recognized is the existing goodwill relating the combining entities.
- Any difference between the consideration and the equity 'acquired' is reflected within equity as merger reserve.
- The statement of profit or loss reflects the results of the combining entities for the full year, irrespective of when the combination took place.

Basis of consolidation

A. Subsidiaries

A subsidiary is an entity that is controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with this entity and has the ability to affect those returns through its power over it. When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has power.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Accounting for business combination under EAS 29 only applies if it is considered that a business has been acquired. For acquisitions meeting the definition of a business, the acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the statement of profit or loss

B. Transactions with Non-controlling interest

The Group applies a policy of treating transactions with non-controlling interests that do not result in the Parent losing control as transactions with equity owners of the Group. When the proportion of the equity held by non-controlling interests changes, the Group adjust the carrying amounts of the controlling and non-controlling interests to reflect the changes in their relative interests in the subsidiary. The Group recognises directly in equity any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received, and attribute it to the owners of the Parent.

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

2. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- The following steps are followed when preparing the Consolidated financial statements:
 - a- Eliminate the carrying amount of the Parent investment in each subsidiary and the Parent share of equity of each subsidiary.
 - b- Identify the non-controlling interest in the profit or loss of the consolidated subsidiaries for the reporting period.
 - c- Identify the non-controlling interests in the net assets of consolidated subsidiaries and presented in the financial statement separately from the Parent ownership interests. Non-controlling interests in the net assets consist of:
 - (1) The amount of non-controlling interests as of the original date of combination.
 - (2) The non-controlling interests' share of changes in equity since the date of the combination.
 - d- Intergroup balances and transactions, revenues and expenses are eliminated.
- The financial statements of the Parent and its subsidiaries used in the preparation of the consolidated financial statements are prepared as of the same date.
- The financial statements of the Parent and its subsidiaries used in the preparation of the consolidated financial statements are prepared using uniform accounting policies for similar transactions and other events with similar circumstances.
- Non-controlling interests are presented in the consolidated financial position within equity, separately from the equity of the owners of the Parent, and the non-controlling interests share in the group profit or loss is presented separately.

Non-controlling interests presented in the consolidated financial statements are as follows:

Company name	% of non-controlling interest
Call Center Company - C3	0.46%
Raya for Contact Center Building Management Company	3%

Changes in accounting policies

The accounting policies adopted are consistent across the periods presented herein.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of these financial statements requires management to make judgments and estimates that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

Estimates and their underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

The key judgements and estimates that have a significant impact on the financial statements of the Company are discussed below:

3.1 Judgments

Revenue Recognition

The management considered the detailed criteria for the recognition of revenue from rendering services as set out in EAS 11 *Revenue* and the contracts between the Company and customers.

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

3.2 Estimates

Impairment of goodwill

The Company carries out impairment testing annually in respect of the goodwill on acquisition of subsidiaries. In carrying out the impairment analysis, the Company makes an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires management to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value.

In calculating the future cash flows expected to arise from the cash-generating unit, management estimates the growth rate keeping in view the historical growth rates over the last five years.

In calculating the discount rate, management estimates the return on capital employed using weighted average cost of capital.

Impairment of trade and other receivables

An estimate of the collectible amount of trade and other receivables is made when collection of the full amount is no longer probable. For individually significant amounts, this estimation is performed on an individual basis. Amounts which are not individually significant, but which are past due, are assessed collectively and a provision applied according to the length of time past due, based on historical recovery rates.

Useful lives of fixed assets

The Company's management determines the estimated useful lives of its fixed assets for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. The management periodically reviews estimated useful lives and the depreciation method to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from these assets.

Taxes

The Group is subject to income taxes in Egypt and Poland. Significant judgment is required to determine the total provision for current and deferred taxes. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities in Egypt and Poland. The amount of such provision is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the Company and the responsible tax authority. Such differences of interpretations may arise on a wide variety of issues depending on the prevailing conditions in Egypt & Poland.

Deferred tax assets are recognised for unused accumulated tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Impairment of non-financial assets

The Company assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. The non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. When value in use calculations are undertaken, management estimates the expected future cash flows from the asset or cash-generating unit and chooses a suitable discount rate in order to calculate the present value of those cash flows.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Foreign currency translation

Transactions in foreign currencies are initially recorded using the prevailing exchange rate at date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated using the exchange rate prevailing at the financial position date; all differences are recognized in the statement of profit or loss as follows:

- To reflect the substance of the revenue transactions of the Group, unrealized and realized foreign currency exchange differences related to accounts and notes receivable, as well as realized exchange differences resulting from sale of foreign currency cash balances are recognized within revenues.
- All other foreign exchange differences are recognized as a separate line item on the face of the statement of profit or loss.

Nonmonetary items that are measured at historical cost in a foreign currency are translated using the exchange rates prevailing at the dates of the initial recognition.

Nonmonetary items that are measured at fair value in a foreign currency are translated using the exchange rates prevailing at the date when the fair value was determined.

The financial statements of the subsidiaries denominated in foreign currency are translated to the Parent company's functional currency which is the Egyptian pound as follows:

- A) Assets and liabilities for each Financial position presented are translated at the closing rate at the date of that Financial position.
- B) Income and expenses for each statement of profit or loss presented are translated at exchange rates at the dates of the transactions, or using average rate for the period when more practical.
- C) All resulting exchange differences are included in the owner's equity as a separate line item as foreign currency translation differences.

Fixed assets

Fixed assets are stated at historical cost net of accumulated depreciation and accumulated impairment losses. Such cost includes the cost of replacing part of the fixed assets when that cost is incurred, if the recognition criteria are met. Likewise, when major inspections and improvements are performed, their cost is recognized in the carrying amount of the fixed assets as a replacement if the recognition criteria are met. All other repair and maintenance costs are recognized in the statement of profit or loss as incurred.

Depreciation of an asset begins when it is in the location and condition where it is capable of operating in the manner intended by management, and it is computed using the straight-line method according to the estimated useful life of the asset as follows:

	Years
Computers and software	2-4
Furniture and office equipment	3-5
Tools and equipment	1-5
Leasehold improvements	Useful life or lease period whichever is less
Electrical Equipment	3-5
Communication networks and devices	3-5
Vehicles	4

Fixed assets are derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from derecognizing of the asset is included in the statement of profit or loss when the asset is derecognized.

The assets residual values, useful lives and methods of depreciation are reviewed at each financial year-end.

The Company assesses at each financial position date whether there is an indication that a fixed assets may be impaired. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount, impairment losses are recognized in the statement of profit or loss.

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Fixed assets – Continued

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years, such reversal is recognized in the statement of profit or loss.

Projects under construction

Projects under construction represent the amounts that are incurred for the purpose of constructing or purchasing fixed assets until it is ready to be used in the operation, upon which it is transferred to fixed assets. Projects under construction are carried at cost less impairment (if any).

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost.

After initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses.

Internally generated intangible assets are not capitalized and expenditure is reflected in the statement of profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Useful lives and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Intangible assets represent the computer programs and the related licenses and are amortized using the straight-line method over their estimated useful lives (1-3 years).

Goodwill

Goodwill is recognized as an asset at the acquisition date of a business combination. Goodwill is initially measured at cost, which represents the excess of the consideration transferred in the business combination over the Company's interest in the fair value of the assets, liabilities and contingent liabilities recognized. After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Accounts receivable and other debit balances

Accounts receivable and other debit balances are stated at original invoice amount net of impairment losses. Impairment is measured as the difference between the receivables carrying amount and the present value of estimated future cash flows. The impairment is recognized in the statement of profit or loss. Reversal of impairment is recognized in the statement of profit or loss in the period in which it occurs.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are reviewed at the financial position date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of a provision should be the present value of the expected expenditures required to settle the obligation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Legal reserve

According to the Company's articles of association, 5% of the net profits of the year is transferred to the legal reserve until this reserve reaches 50% of the issued capital. The reserve is used upon a decision from the general assembly meeting based on the proposal of the Board of Directors.

Borrowings

Borrowings are initially recognized at the value of the consideration received. Amounts maturing within one year are classified as current liabilities, unless the Company has the right to postpone the settlement for a period exceeding one year after the financial position date, then the loan balance should be classified as long term liabilities.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the statement of profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the effective interest rate, the effective interest rate amortization is included in finance cost in the statement of profit or loss.

Income taxes

Income tax is calculated in accordance with the applicable tax law.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted at the reporting date.

The current income tax charge is calculated on the basis of the tax laws enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Deferred tax – Continued

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

Revenue is measured at the fair value of the consideration received, or receivable excluding discounts, rebates, and sales taxes or duties.

- **Service revenue**

Revenue is recognized when service is rendered to the client according to the contract terms.

- **Finance income**

Finance income is recognized as it accrues using the effective interest rate (EIR) method and recognized in the statement of profit or loss. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability.

- **Government Grants**

Government grants are recognized when there is reasonable assurance that the company will comply with the conditions attaching to them; and the grants will be received. Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the entity with no future related costs are recognized in profit or loss of the period in which it becomes receivable.

Expenses

All expenses including operating expenses, general and administrative expenses and other expenses are recognized and charged to the statement of profit or loss of the period in which these expenses were incurred.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Related party transactions

Related parties represent associated companies, major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the boards of directors.

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Social insurance and Employees' End-of-services

a- Social Insurance: The Company makes contributions to the General Authority for Social Insurance calculated as a percentage of the employees' salaries. The Company's obligations are limited to these contributions, which are expensed when due.

b- Employees' End-of-services: The Company provides end-of-service benefits to its employees. The entitlement to these benefits is usually based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The costs of these benefits are accrued over the period of employment.

Accounting estimates

The preparation of financial statements in accordance with Egyptian Accounting Standards requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the financial years. Actual results could differ from these estimates.

Impairment of assets

Impairment of financial assets

The Company assesses at each financial position date whether there is any objective evidence that a financial asset or a group of financial assets are impaired. A financial asset or a group of financial assets are deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that a non-financial asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used.

A previously recognized impairment loss is only reversed if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

Statement of cash flows

The statement of cash flows is prepared using the indirect method.

Cash and cash equivalent

For the purpose of preparing the cash flow statement, the cash and cash equivalent comprise cash on hand, current accounts with banks, time deposits with original maturity within three months, reduced by bank overdraft, if any.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Fair value measurement (Continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets traded in an active market, fair value is determined by reference to quoted market bid prices.

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

For unquoted assets, fair value is determined by reference to the market value of a similar asset or is based on the expected discounted cash flows.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Fair value measurements are those derived from quoted prices in an active market (that are unadjusted) for identical assets or liabilities.
- Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

* Prior to the decision by the CBE in November 2016 to allow the Egyptian Pound to float freely against foreign currencies, such as the U.S. Dollar, the prevailing market rate differed from the official rate published by the CBE. As the Group receives its revenues principally in U.S. Dollars and pay its costs and expenses primarily in Egyptian Pounds, the Group is required to exchange U.S. Dollars for Egyptian Pounds from time-to-time mainly within Raya Holding group, which the Group has done at the prevailing market rates, in accordance with market practice.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

16 CAPITAL

At incorporation, the Company had authorized capital of EGP 150 million and issued capital of amount EGP 15 million divided over 1.5 million shares with par value EGP 10 per share. The Company's paid up Capital amounted to EGP 6 million. On 17 October 2001, the General Assembly meeting decided to increase the paid up capital to be EGP 9 million.

On 24 December 2011, an Extraordinary General Assembly meeting decided to decrease the issued capital to be EGP 9 Million divided over 900000 shares with par value EGP 10 per share, which is fully paid. This change was registered in the commercial register on 23 May 2012.

On 7 of April 2014, the Company's Board of Directors approved the increase of the issued capital of the Company to EGP 50 million divided over 5 million share with par value EGP 10 per share. This change was registered in the commercial register on 28 April 2014.

On 28 April 2014, an Extraordinary General Assembly meeting decided to decrease the par value per share from EGP 10 to EGP 0.50 to be divided over 100 million shares instead of 5 million shares. This change was registered in the commercial register on 20 November 2014; the Company's current capital structure is as follows:

	% of ownership	Number of shares	Paid up capital EGP
Raya Holding Company for Financial Investments (S.A.E)	99.8%	99802000	49,901,000
Raya Integration Company (S.A.E)	0.18%	180000	90,000
Raya Distribution Company (S.A.E)	0.01%	12000	6,000
Citibank Overseas Investment Corporation Company (S.A.E)	0.01%	6000	3,000
	<u>100%</u>	<u>100000000</u>	<u>50,000,000</u>

On 8 January 2017, an Extraordinary General Assembly meeting decided to offer 49% of the Company's share capital on Egyptian stock market by maximum limit of 49 million share. Also, approved the increase of the Company's authorized capital to be EGP 500 million, and increase the Company's issued capital within the authorized capital through the issuance of number of shares not exceeding 10 million share and specializing those shares to Raya Holding Company for Financial Investments (S.A.E) (Principal shareholder) against shares offered on public offering and/or special offering by the same final price at offering.

This increase is financed from the proceeds of the secondary offering after the completion of the offering process and settling the stabilization account of shares price; this increase is approved only by the decision of the principal shareholder.

On 29 March 2017, Raya Contact Center S.A.E. issued Offering memorandum in the Egyptian Stock Exchange where Raya Holding Company for Financial Investments S.A.E. (the main shareholder - seller) sold 48994000 share representing 48.99%.

Prior to the completion of the offering period, 1430288 share were returned to Raya Holding Company for Financial Investments S.A.E. (the main shareholder - seller).

On 30 April 2017, Raya Holding Company for Financial Investments S.A.E. transferred EGP 100 million to Raya Contact Center S.A.E. under capital increase in accordance with the extraordinary general assembly resolution held on 8 January 2017.

On 20 June 2017, according to board of directors meeting held on this date, the company decided to increase the issued capital by issuing 6060606 shares at amount EGP 16.5 per share (offering price) , which represent the par value per share of amount EGP 0.5 and issuance share premium of amount EGP 16 per share. This difference (issuance share premium) amounted to EGP 96,969,697, will be recorded in the reserve account. It was determined that the authorized capital is EGP 500 Million and the issued capital is EGP 53,030,303 divided over 106060606 shares each of par value EGP 0.5 and all are cash shares. The legal procedures to register the capital increase are still in process.

17 MERGER RESERVE

Until the date of the common control transaction (acquisition of Raya Contact Center Building Management Company and Call Center Company, the merger reserve represents the Company's share in the nominal value of the shares of the subsidiaries owned by the Ultimate Parent and its subsidiaries in addition to goodwill previously recognized in the books of the Ultimate Parent when it originally acquired "Call Center Company - C3" (Note 7). Consideration paid by the Company to acquire the subsidiaries shares during April 2014 has been reflected as a distribution.

26 EARNING PER SHARE

Basic earnings per share amounts are calculated by dividing net profit for the period applicable to attribute to the Parent by the weighted average number of ordinary shares outstanding during the period. The Company has no dilutive shares.

The information necessary to calculate basic and diluted earnings per share is as follows:

	<i>Six Months</i>		<i>Three Months</i>	
	2017	2016	2017	2016
	EGP	EGP		
Profit for the period attributable to the Parent	80,908,193	19,631,915	40,978,726	11,666,785
Employees' and board of directors share (estimated)*	(12,407,026)	(4,005,620)	(7,685,546)	(2,386,261)
Net profit applicable to attribute to the ordinary equity holders of the Parent	68,501,167	15,626,295	34,293,180	9,295,035
Weighted average number of ordinary shares for basic and diluted earnings	100000000	100000000	100000000	100000000
EPS – basic and diluted	0,69	0,16	0,35	0,10

* According to the Egyptian law, employees and Board of Directors members are entitled to a percentage of the company's profit as a profit sharing when dividends are declared.

27 SEGEMENT REPORTING

The Group identifies two sets of segments information that management uses to make decisions about operating matters: Business segments, which are based on related types of services provided, and geographic segments, which are based on geographical areas in which the Group have locations.

Business segments: for management purposes the Group activities are organized into four main business segments:

- Contact Center Services including: Customer Service, Technical Support, Inbound Sales and Tele-marketing.
- Inside Sales Channel Management services including: Account Profiling, Campaign Management, Lead Management and Account Management.
- Back Office Services including: Data Management, Finance & Accounting, Payroll Processing and Supply chain Management.
- Professional Services including: Call Center Hosting, Contact Center Training, Social Media, Contact Center and Stratup Consultancy.

Geographical segments: the Group currently operates in 3 main locations, Egypt, Dubai and Poland, all geographic locations can and intended to provide all of the four activities which the Group provide.

Operating segments that did not meet any of the quantitative thresholds were considered reportable, and were separately disclosed, since management believes that information about these segments are regularly monitored by the executive management and would be useful to users of the financial information.

B. Legal cases

The Group has some employment legal cases with some former employees'; based on the management assessment the probability of winning these cases is possible; the total exposure is not expected to be material.

29 FINANCIAL INSTRUMENTS AND RELATED RISK MANAGEMENT

Overview

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk,
- Market risk, and
- Liquidity risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk.

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

29 FINANCIAL INSTRUMENTS AND RELATED RISK MANAGEMENT (Continued)

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk principally from its receivables from customers, due from related parties, other receivables and from its financing activities, including deposits with banks and financial institutions.

Trade and notes receivables

Credit risk is represented in the inability of customers to pay the amounts due from them; the Group controls this risk through dealing with customers with credit worthiness that have the ability to pay their debts.

Other financial assets

With respect to credit risk arising from the other financial assets of the Company at amortised cost, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these assets.

Bank Balances

The Company reduces the credit risk related to bank balances by dealing with reputable banks. Credit risk from balances with banks and financial institutions is managed by Company's treasury. The Company limits its exposure to credit risk by only placing balances with international banks and local banks of good repute. Given the profile of its bankers, management does not expect any counterparty to fail to meet its obligations.

Due from related parties

Due from related parties are with minimal credit risk, with a maximum exposure equal to the carrying amount of these balances.

b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as currency risk and interest rate risk, which will affect the Company's income. Financial instruments affected by market risk include credit facilities and deposits. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Exposure to interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's obligations with floating interest rates.

Interest on financial instruments having floating rates is re-priced at intervals of less than one year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates with all other variables held constant, of the Company's profit before tax:

	30 June 2017		30 June 2016	
	Change in rate	Effect on profit before tax EGP	Change in rate	Effect on profit before tax EGP
Financial asset	+1%	104,000	+1%	7,794
	-1%	(104,000)	-1%	(7,794)
Financial liability	+1%	(1,254)	+1%	(52,344)
	-1%	1,254	-1%	52,344

RAYA CONTACT CENTER (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 JUNE 2017

29 FINANCIAL INSTRUMENTS AND RELATED RISK MANAGEMENT (Continued)

b) Market risk (Continued)

Exposure to foreign currency risk

The following tables demonstrate the sensitivity to a reasonably possible change in USD, EUR, AED, GBP, PLN and SAR exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the value of monetary assets and liabilities. The Company's exposure to foreign currency changes for all other currencies is not material.

	30 June 2017			30 June 2016		
	Change in rate	Effect on profit before tax EGP	Effect on Equity EGP	Change in rate	Effect on profit before tax EGP	Effect on Equity EGP

	-10%	(105,166)	-	-10%	(28,345)	-

c) Liquidity risk

The cash flows, funding requirements and liquidity of the Company are monitored by Company's management. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank borrowings. The Company manages liquidity risk by maintaining adequate reserves and borrowing facilities.

The Company currently has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

Financial liabilities	Less than 3 Months EGP	3 to 12 months EGP	1 to 5 Years EGP	Over 5 years EGP	Total EGP
