OUR SERVICES

Providing outsourced customer and technical support in 15+ languages. Award-winning service from 14 advanced locations, across 4 continents.

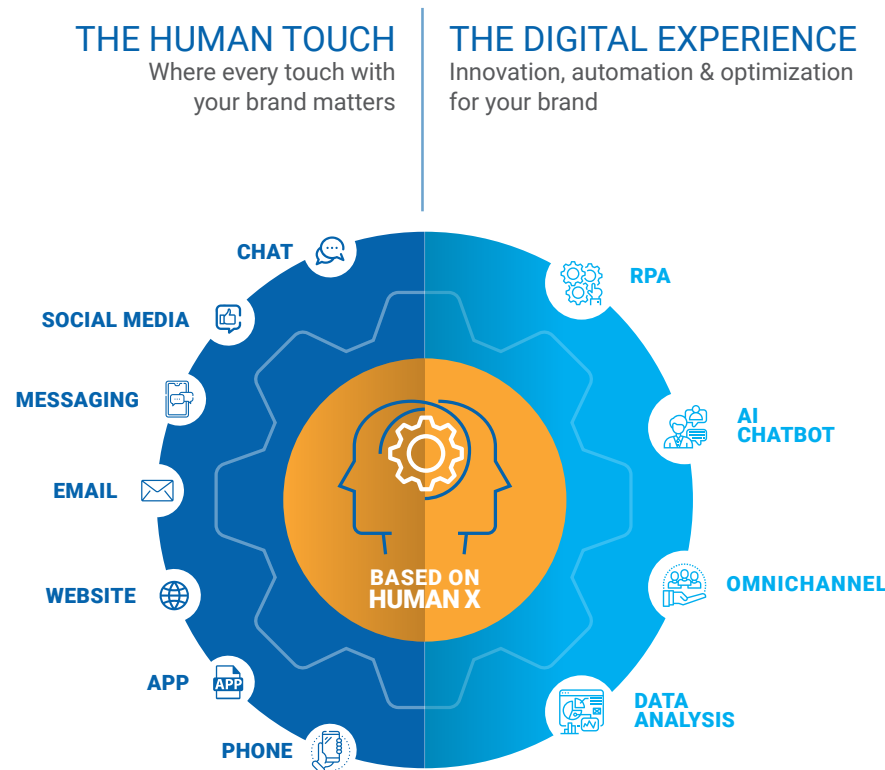

We are committed to providing customers with the most intuitive, thoughtful, and thorough experience possible. After all, exceptional performance in this area is an essential requirement in the 21st-century marketplace.

We combine advanced technology with a human touch, for the optimum CX.

At RAYA Customer Experience, we know that you cannot have great CX without great people.

That's why we carefully select all of our CX agents, before providing them with meticulous training (and re-training). Our specialist agents are proud to be the stewards representing your brand. They provide you with that final important piece in your company's puzzle. The final factor that it needs to scale at an incredible rate.

The combination of these factors enables us to create digitally-enabled, omnichannel customer experiences of an unparalleled standard.

DIGITAL SOLUTIONS

For Enhanced Customer Experience (CX)

Fulfill customers' needs by combining our core services with the industry-leading digital tools.

Our focus is on three key principles: creating smarter yet personal experiences, increasing loyalty and driving growth.

ROBOTIC PROCESS AUTOMATION (RPA)

RPA is an extremely helpful tool when up-scaling customer experience. In recent years, RPA has become a big industry player for companies who are wanting to automate services with the following traits.

- Highly manual
- Prone to human error
- Rule-based
- Low exception rate
- Standard readable input
- Mature and stable
- High volume & repetition

DATA ANALYTICS

It is a process of inspecting, cleansing, transforming, and modeling data to discover useful information, informing conclusions, and supporting decision-making.

- Integrated Quality Assurance
- Deep analytics
- CX Insights (NPS, FCR, CES)

AI CHATBOTS

Chatbot usage has been on the rise for the better part of a decade. They are most commonly used in customer support (taking or returning orders, etc.) and recruitment services (responding to FAQs from applicants).

Although they can't yet handle complicated queries, they are still a great way to improve your key business functions.

OMNICHANNEL

Whatever assistance your customer may require, you must fulfill all of their needs to their complete satisfaction. This top quality of customer service means being on-hand to provide help around the clock through numerous contact points. That's why we have developed the following specialist omnichannel mediums:

- Voice
- Email
- Tickets
- Chatbots
- Live Chat
- Co-browsing
- SMS
- Social Media
- Knowledgebase
